

The Challenge

Alterman was experiencing drug test result turnaround times of 24-48 hours with their previous vendor. Employees had to wait up to 2 hours to be drug tested and pricing was less than ideal. Additionally, Alterman needed help with managing NCMS compliance. Something had to change.

The Solution

Alterman was looking for a vendor who could provide rapid results, shorter wait times, and better pricing. A coworker suggested Fastest Labs. Alterman originally had Fastest Labs assist with NCMS management, and then ended up migrating all drugs screens. Since partnering with Fastest Labs, Alterman has enjoyed electronic form submittal, instant rapid drug screen results, on-site services, and better pricing.

The Customer

Quality workmanship completed by experienced and dedicated employees has established Alterman as one of the top leading electrical contractors in Texas. Superior installations, completed on time, provide our clients with lasting results that minimize life-cycle costs. Alterman's success can be attributed to the professional attitudes and exceptional skills and expertise of our managers, supervisors, electricians, technicians and support personnel.
